Philip to head Canadian entry in university games

Bob Philip, an Associate Director in the Department of Fitness, Recreation & Athletics at Concordia University, has been named Chef de Mission for the 1987 FISU Winter Games to be held February 21 to 28 in Strebske Pleso, Czechoslovakia.

The FISU Winter Games are held every two years and offer world class competition in cross-country and downhill skiing, figure skating and ice hockey for university students.

Canada will be competing this year in figure skating and hockey. A total of 29 nations will be taking part in the event, nine of which will participate in hockey. Both the Soviet Union and host Czechoslovakia are part of this group.

Philip was selected to this prestigious position by the International Committee of the Canadian Interuniversity Athletic Union at its annual meeting last June. He has been with Concordia for 15 years and currently heads up the fitness and recreation program, as well as representing the university at the CIAU level.

Philip is a resident of Baie D'Urfe on Montreal's West Island.
